

SEMINAR

PSMA Presents Smackdown 2011!
The Battle of the Titans!
“Design Build vs. Stipulated Sum vs. Construction Management”

SPEAKERS

Dale “Undertaker” Burghall – PCL Constructors
Bill “Mysterio” Frost – Graham Construction
John “Hulk” Hiebert – TASK Construction Management

SYNOPSIS

Facility Project Funding is increasingly more challenging and the decisions regarding project delivery options, for Owners, are fundamental to every aspect of the project life cycle. Our panel of experts will present, debate and defend their assigned construction delivery methodology. This is an opportunity for an open discussion of the merits of these different delivery methods, challenging the positives and negatives that we perceive are attached to each of them. The Good, the Bad and the Ugly will surface, as our speakers will also be available for questions from the audience. Join us for a lively and entertaining seminar!
