PRESS RELEASE

TASK WINS VRCA GENERAL CONTRACTOR OF THE YEAR AWARD

FOR IMMEDIATE RELEASE - Burnaby, October 28, 2010: TASK Construction Management today announced it has received the 2010 General Contractor of the Year Award for British Columbia from the Vancouver Regional Construction Association (VRCA).

The Award, which was presented Tuesday night at the Vancouver Trade and Convention Centre, recognizes industry excellence for a broad range of working contributions including construction quality and safety, comprehensive knowledge of all aspects of construction, exemplary leadership where team work and respect are steadfastly practiced, superior communication skills and constant dedication to the successful completion of projects.

TASK has been providing construction management (CM) and project management (PM) services to building owners across Western Canada since 1988. The executive team of John Hiebert and John Bowser have over 75 years of combined construction experience and have managed hundreds of millions of dollars in construction projects that cover recreation/leisure, hospitality, education and commercial/industrial facilities.

"We are very proud of our accomplishments in the 22 years we've been in business," said John Hiebert, President and CEO of TASK Construction Management. "Receiving this award validates our continued efforts to deliver construction excellence, integrity and reliability. We're extremely honored the VRCA selected us and correspondingly humbled by the incredible support, accolades and recognition we received from both the trades and the peers we've worked with throughout the years."

[MORE](#)

"The awarding of the General Contractor of the Year follows on the heels of a pretty significant year for TASK Construction with the completion of the Poirier Sports and Leisure Complex," added John Bowser, Chief Operations Officer, TASK Construction Management. "We view the achievements realized at the Sports Centre – the challenge of producing a multi-activity/multi-program facility without disrupting a single program, an unheard of completion date 10 months ahead of schedule, construction budget savings of several million and the introduction of new and extremely innovative green heating practices to name a few - are a direct result of the collective skills, experience and knowledge we've accumulated and the collaborative relationships we've formed with all our trades and suppliers over the years."

TASK is currently working on a new library facility for the Okanagan Regional Library in Vernon. TASK will continue to offer project and construction management services to Rec/Leisure, Hospitality, Educational and Commercial Industries throughout Western Canada and through a recent acquisition by Groupe MC/Fayolle will expand the scope of their services to include industries across Canada.

ABOUT TASK CONSTRUCTION

TASK Construction Management, a Groupe MC Company, has provided over 21 years of construction and project management services throughout Western Canada to private and publicly funded developers and building owners. Specializing in fast-track construction management techniques, TASK has won several industry and sectoral awards for excellence in project delivery.
